Dear Parents and Carers,

Online Safety Course for Parents & Carers

Our role of educating and informing our children and their families about online safety is paramount to our school. We are a National Online Safety certified school and all of our members of staff are fully training in understanding issues surrounding online safety and are therefore fully equipped to provide education based on this. We send out regular updates about current online safety issues including the parents & carer guides #WakeupWednesday.

As the online world evolves, so do both the online risks facing our children and the relevant legislation, which directs and guides how schools should meet their online safety requirements. As the first line in defence in keeping children safe, parents and carers play a vital role. The National Online Safety has produced an updated Online Safety Course for Parents & Carers. Through undertaking the course, you will learn about unsafe communications, the effects to mental health, wellbeing & lifestyle and how to manage online information.

If you have completed a course with National Online Safety before, please follow the link below to access the updated 2019-2020 Parents & Carers course.
